A series of horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged in a vertical stack, with the longest bar at the top and the shortest at the bottom. The lengths of the bars decrease in a non-linear fashion from top to bottom. There are 10 bars in total. The top bar is the longest, followed by a bar that is slightly shorter, then a bar that is significantly shorter, and so on, with the bottom bar being the shortest. The bars are all a uniform gray color and are separated by small gaps.

A series of horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged in a vertical stack, with the longest bar at the top and the shortest at the bottom. The lengths of the bars decrease in a non-linear fashion from top to bottom. There are 10 bars in total. The top bar is the longest, followed by a bar that is slightly shorter, then a bar that is significantly shorter, and so on, with the bottom bar being the shortest. The bars are all a uniform gray color and are separated by small gaps.

A series of 10 horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged vertically, with the longest bar at the top and the shortest at the bottom. The lengths of the bars decrease in a non-linear fashion from top to bottom. The top bar is approximately 95% of the width, while the bottom bar is approximately 10% of the width. The bars are a uniform light gray color and are separated by small gaps.

A series of horizontal gray bars of varying lengths, representing a data visualization. The bars are arranged in a vertical stack, with the longest bar at the top and the shortest at the bottom. The lengths of the bars decrease in a non-linear fashion from top to bottom. There are 10 bars in total. The top bar is the longest, followed by a bar that is slightly shorter, then a bar that is significantly shorter, and so on, with the bottom bar being the shortest.
